### **Announcement of Revised Dividend Forecast (Dividend Increase)**

IR Japan, Inc. (“IR Japan” or the “Company”) today announced that its Board of Directors resolved at its meeting held on October 28, 2011, to revise and increase its per share dividend forecast for the fiscal year ending March 31, 2012 (fiscal year 2011), as follows.

#### 1. Reason for the revision

IR Japan, Inc. makes it a basic policy to distribute profits to its shareholders according to its business results, while maintaining its financial strength by securing sufficient internal reserves to carry out sound business operations.

The Company had initially forecast a year-end dividend of ¥25.00 per share for the fiscal year 2011. After thorough deliberation of both the steady results leading up to the second quarter of the fiscal year 2011, and the likelihood of full-year results forecasts being achieved, the Company decided to revise and increase its year-end dividend by ¥15.00 per share, to ¥40.00.
